

# camper

This is a very versatile and practical self-standing tent, ideal to fit campervans and 4x4 vehicles. The whole awning can be completely closed and is free standing, so you can then drive away your vehicle. The fixing system to the vehicle consists of an elastic band with eyelets and guy ropes.

To fit vehicles up to 220 cms. The front panel can be rolled up or stand as a front canopy. Each side panel has a fixed window and a mosquito net with cover. The left side has also a door. Access to the vehicle is an adjustable large door (up to 200 cms long) on the rear of the awning.
