

# stela 250-300-350

Available in **three versions**: Standard in 250 cms, extra space at 300 cms and special limited series in 350 cms deep. It is an attractive awning, balancing strong, finely designed features while boasting an elegant combination of colours such as light grey and silver. Our ultimate goal is to create an outstanding product in the caravanning market, the Stella balances ambient levels of light with space and comfort to achieve this.

**The front wall**, with three/four fixed transparent windows and one/two detachable doors that may be moved in any direction, allows for all possibilities of variation.

**Each side panel** features one door and a roll down window with mosquito net. Models in 300/350 version will also provide a fix window.

The whole awning may be completely closed, transformed into a veranda, or into a sun canopy.
